Learning Objectives

1. Recognize social-determinants of health
2. Define the term “medical-legal partnership”
3. List qualities that make medical-legal partnerships successful
Agenda

I. Social Determinants of Health

II. MLP Model

III. Healthcare Provider’s Role in the MLP

IV. What if your organization is not part of an MLP?

V. Questions
I. Social Determinants of Health

The social determinants of health are the conditions in which people are born, grow, live, work and age. These circumstances are shaped by the distribution of money, power and resources at global, national and local levels.

V. What if your organization is not part of an MLP?
What if your organization is not part of an MLP?

Look for resources:
- Local legal services providers
- Local social services organizations

Contact the National Center for Medical Legal Partnerships
What if your organization is not part of an MLP?

Contact your alma mater

(Tyler, ET et al. J Leg Med. 2014;34:149-177)

Active Learning Question #3

You are a pharmacist who works with elder, low-income patients. A patient comes to the window and says that Medicare is refusing to pay for his dental surgery, even though it was medically necessary. Your organization is not part of an MLP. To best assist him you could:

a) Say I’m sorry and wish him a good day.

b) Give him the website for local food pantries.

c) Give him the contact information for a local legal services organization that works on Medicare issues.

d) Offer to start a collection jar at the pharmacy.
